

Nalinoë (Nalie) Kernizan, PharmD, BCACP

Ambulatory Care Clinical Pharmacist

Nalie Kernizan provides direct patient care and comprehensive medication management to patients across Vanguard Medical Group. Her focus is to improve the control of chronic conditions and reduce healthcare expenditures. She is involved in assisting providers in selecting disease-specific treatment options, improving patient medication adherence and education, and reducing medication related problems. She has successfully helped reduce hemoglobin A1c by 2% in patients with uncontrolled diabetes through medication recommendations and helped achieve four stars in our medication adherence measures in two Medicare Advantage contracts.
